Have your Misericordia Candy Days team set up your page for you

You have the option to have a member of the Misericordia Candy Days team set up a generic page or create a more customized page for you. To create a customized page, the team will require additional information from you. Please note, the team will not create a message for you or take photographs. All information on your customized page will need to be supplied by you.

1. Send an email to one of the following members of the Misericordia Candy Days team:

annemills@misericordia.com or greggh@misericordia.com

2. Your email should include the following information if you want us to set up a very generic page that you can go back and edit or simply leave as it is:
 - a. Email address and user name you want us to use for your page
 - b. The name of your page (Resident/your name/MFA#)
 - c. Fundraising goal
3. You can also provide the following additional information to have us create a more customized page for you:
 - a. Text/story about your resident
 - b. Pictures
 - c. If you would like us to use your 2023 pictures and text, please let us know
4. After we have set up your page we will send you in an email with your Login Username, password and the link to your page. If you would like us to make any changes or edits after you have had a chance to look it over, simply email us back.

Sending out your link to your fundraising page to donors

We do not recommend that you use the FrontStream system to manage your emails for sending out your link to your donor base. Over the years, families have encountered numerous problems, including emails going to spam, failed imports of emails, limits on the number of emails, etc. In addition, the link within the email that is sent by Frontstream on your behalf does not go to your individual story page, but instead to go a generic donate page.

The best approach is to simply use the “url” or link for your individual page and copy it into emails you want to send using your own email provider. You will receive the “url” or link for your page from FrontStream when you register and set up your page.

You can also find your page by going to the Misericordia Home Page (<https://secure.frontstream.com/misericordiacandydays2024>)

- a. In the upper right-hand corner, click on search.
- b. Enter your name in the pop-up search box.
- c. Once your page comes up, copy and paste the URL from the address bar

Sharing your page on social media

If you wish to share your fundraising page via social media, please note that the Facebook icon does not appear to work properly. We strongly recommend that you copy and paste your link into a message on your Facebook page, Instagram or Twitter.

Facebook Note: We have discovered that when you are pasting your link into a Facebook message, the picture that comes in with the link is distorted. If you would like to add a new picture, click on the “X” in the upper right-hand corner of the image to delete the picture (The link will remain). You will then be prompted to add a new picture. Click on the camera or prompt to add a picture from your personal files. And, don’t forget when posting a message on Facebook, please write a short message to your friends about Candy Days and Misericordia.
