"The overall objective of World Mental Health Day is to raise awareness of mental health issues around the world and to mobilize efforts in support of mental health. The Day provides an opportunity for all stakeholders working on mental health issues to talk about their work, and what more needs to be done to make mental health care a reality for people worldwide."

THANK YOU FOR HELPING US STAY #MISERICORDIASTRONG

We have finally met our COVID vaccination goal, and this could not be done without the help and consideration of every one of you! By being vaccinated, you have ensured that you're protecting yourselves, protecting our residents, and protecting our community.

To all of those who received the initial series of the Pfizer vaccine, please [click here](#) for information about the vaccine booster. For those whose initial vaccine series was Moderna, we are still waiting on the CDC to approve it as a booster. We will let all staff know when the CDC decides on this booster.

FIT FOR SUCCESS - TIER 1 POSTPONED

The next round of Tier 1 Fit for Success scheduled to begin October 28 has been postponed. We are thrilled with the energy and success of the S.E.E.D. (Skills Enhancement / Employee Development) so far, but given current needs across campus, we will pause for a few weeks and resume this program after the New Year. Misericordia is committed to providing this important opportunity for personal and professional growth to our staff. Watch the newsletter for more information about new developments to the Fit for Success Program and dates for the next round. For questions about the FFS, contact [Mary Ann Goode.](#)
